

# Future Airborne Capability Environment (FACE™) Statement of Verification

Version 2.0  
March 2017

*This Statement of Verification is completed by a FACE Verification Authority (VA) for a single Unit of Conformance (UoC) or UoC Package. The completed form is the VA's statement that the UoC has passed the FACE Verification Process and can be presented to the FACE Certification Authority for Conformance Certification.*

## 1. Verification Authority Information

Specify the name of the Verification Authority (VA) that performed verification of this Unit of Conformance (UoC) and the name of the Point of Contact for this Statement of Verification.

<b>Verification Authority ID</b>	
<b>Verification Authority Name</b>	
<b>Verification Authority Point of Contact Name</b>	

## 2. Unit of Conformance (UoC)/UoC Package Information

Specify the name of the organization that is having this UoC or UoC Package (if applicable) certified. Specify the name, version number (if applicable), and part number of the UoC that underwent verification.

<b>Supplier Organization Name</b>	
<b>Supplier Point of Contact Name</b>	
<b>Supplier Contact Information</b>	
<b>UoC/UoC Package Name or Identifier</b>	
<b>UoC Version (if applicable)</b>	
<b>UoC Part Number</b>	
<b>UoC Variants</b>	

### 3. Verification Information

This section contains information regarding the verification process for the UoC or UoC Package defined above.

<b>Verification Complete Date</b>	
-----------------------------------	--

#### 3.1 Statement of Successful Verification

The VA has reviewed all requirements in the Technical Standard against the information in the Verification Package to determine which are applicable.	
The VA confirms that all conditional requirements for the chosen segment have been included in Section 5 of the Software Supplier’s Statement of Conformance.	
Were any Approved Corrections to Problem Reports used in order to validate any of the requirements?	If yes, complete the table in Appendix A to identify each such requirement and the corresponding Problem Report.
The VA confirms that the Verification Evidence and applicable results from the Conformance Test Suite, in conjunction with any Approved Corrections cited below, indicate that the UoC meets the applicable Conformance Requirements.	
The VA confirms that the UoCs submitted as a UoC Package are a valid UoC Package (if applicable).	
Verification Authority Notes	

Note: The following sections apply only to UoCs and do not apply to UoC Packages.

### 4. Conformance Test Environment

Specify the version number of the FACE Conformance Test Suite and version number of the Conformance Verification Matrix that were used for the For-the-Record Verification testing of the UoC.

<b>FACE Conformance Test Suite Version</b>	
<b>Shared Data Model Version</b>	
<b>Conformance Verification Matrix Version</b>	

## A Approved Corrections Used

---

If there were any Approved Corrections cited in the Verification Information in Section 3, include a row in the table below for each Approved Correction used to pass verification. Include the PR/CR Ticket ID and the text of the Approved Correction.

Problem Report ID	Approved Correction
